# ON THE WILD SIDE

## BEAUTY EXPERT

On The Wild Side is a French skincare brand offering certified organic and 100% natural products made from wild plants.

Free from essential oils and synthetic preservatives.

At the heart of OTWS's highly effective formulas lies a unique, patented blend of two remarkable wild plants: birch sap and beech bud extract.

Working in synergy, these ingredients help to:

- boost cell regeneration
- strengthen the skin's natural barrier
- slow down oxidative stress and skin aging

This wild botanical power is the source of the brand's effectiveness, thanks to its patented active ingredients.

On The Wild Side is more than just skincare. It's a manifesto of kindness and authenticity—where natural ingredients meet indulgence, wild spirit meets sophistication, and simplicity meets performance.

Backed by this expertise, the On The Wild Side treatment menu features innovative rituals that amplify the potency of the formulas to deliver a truly unique experience.

Each treatment is carefully crafted and tailored to your skin's specific needs.
